

ACTUATE™

Heavy Duty Machine Dishwash

DESCRIPTION:

ACTUATE™ is designed for machine dishwashing operations for all types of china, glass and plastic ware. **ACTUATE™** does not contain caustic soda or potassium hydroxide and can be used on aluminum. **ACTUATE™** is highly chlorinated for effective removal of proteinaceous soils. **ACTUATE™** contains three builders for effective removal of heavy soil and grease. These builders also soften the water to prevent spotting on the dishes and scale build-up on the equipment. Special corrosion inhibitors also protect the machinery and prevent deglazing of fine china patterns. This product contains organic rinsing agents which provide free rinsing action, eliminating water spotting on glasses. **ACTUATE™** meets the requirements for phosphate content in all phosphate restricted areas.

DIRECTIONS FOR USE:

Before using, read Material Safety Data Sheet for this material.

**** SEPARATE STERLING FROM STAINLESS STEEL ****
DIRECT CONTACT CAN PERMANENTLY DAMAGE
SILVER ITEMS.

Smaller Machines: Fill all dispenser caps.

Commercial Machine Dishwashing:

Use 1 ounce of **ACTUATE™** per gallon of water.

De-Staining:

Soak stained china or plastic in a solution of 3 ounces of **ACTUATE™** per gallon of hot water.

NOTE: Increase dose in very hard water.

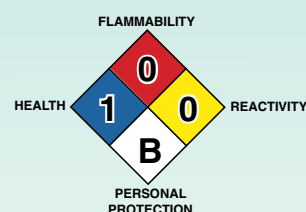

AVAILABLE PACKAGE SIZES

FT 90175 (4) 7.5 Pound Jars
 FT 90150 50 Pound Pail

TECHNICAL DATA

Form:	White Granular Powder
pH 1% Solution	12.0 - 12.5
Chlorine:	2% Available
Solvents:	None
USDA:	A1
Phosphates:	5.3% P
Sodium Hydroxide:	None
Potassium Hydroxide:	None
Active Alkalinity:	32.0% Na ₂ O
