

CITRA BONNET™

Emulsion Bonnet Cleaner with PUNCH POWER

DESCRIPTION:

CITRA BONNET™ contains d-Limonene. d-Limonene is a super power natural solvent utilized to discolor grease, oil and stains. **CITRA BONNET™** has a very pleasant orange fragrance that will leave the room smelling great! **CITRA BONNET™** is a **STABLE** emulsion bonnet buffing concentrate. **CITRA BONNET™** provides the ultimate in fast solvent cleaning. The blend of solvents and dry detergents transfers soils to the pad leaving no residue to resoil. **CITRA BONNET™** is the best choice for traffic lane cleaning and pre-spotting before extraction cleaning. **CITRA BONNET™** has many uses in addition to bonnet cleaning carpets. **CITRA BONNET™** can be used as a rotary shampoo and as a prespotter for traffic areas and as a power additive for extraction cleaning. **NO SPECIAL EQUIPMENT REQUIRED:** Only a sprayer and floor scrubber, pad holder and bonnet.

DIRECTIONS FOR USE:

Before using, read Material Safety Data Sheet for this material.

SPRAY METHOD: Full carpet areas may be cleaned with a regular rotary machine in conjunction with a terry cloth or nylon rotary bonnet pad. Mix one part **CITRA BONNET™** to eight parts water in a pressure sprayer. Wet pad with water and wring dry. Spray a 6x6 foot area of carpet with cleaning solution, then spray both sides of pad. Scrub carpets as you would when buffing a waxed floor. Overlap each area with spray and scrubbing. As the cloth becomes soiled on both sides, rinse in warm water, wring dry and respray with cleaning solution. Pad should clean 400 sq. ft. for normally soiled carpet before washing is required. Vacuum carpet after cleaning.

BUCKET METHOD: Mix 16oz. of **CITRA BONNET™** to one gallon of water. Using a bucket and a wringer, dip bonnet in solution, then wring out to damp-dry. Place pad on machine. Scrub one section until the bonnet pad is soiled. Turn pad over and repeat. After the bonnet pad has been soiled on both sides, return to solution, clean and re-wring to damp dry.

SPOT REMOVAL: Use **CITRA BONNET™** in its pure form for removal of all types of spots, including grease, oils, soft drinks, etc. Using a terry cloth rag, rub cleaner on spot from the outer edge of spot toward the center.

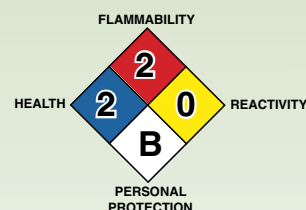

AVAILABLE PACKAGE SIZES

FT 20604 4x1 Gallon Bottles

TECHNICAL DATA

Form:	Liquid
Color:	Milky White
Fragrance:	Cinnamon
Specific Gravity @ 75F:	0.92
pH:	8.0 - 9.0
Viscosity @ 75F:	Thin
Stability:	1 Year Minimum
Density @ 75F:	7.7 lbs Per Gallon
Flash Point:	Greater than 140F

HMIS Rating
