

MACHINE DISHWASH™

Heavy Duty Machine Detergent

DESCRIPTION:

MACHINE DISHWASH is an easy to use general-purpose alkaline detergent designed for use with automatic feed systems. This product works effectively in hard and soft water. **MACHINE DISHWASH** cuts through grease and soil and leaves plates and glasses sparkling clean. This product is safe on glassware, china, and stainless. It is not recommended on aluminum serveware. **MACHINE DISHWASH** will not corrode the washer.

DIRECTIONS FOR USE:

Before using, read Material Safety Data Sheet for this material.

MACHINE DISHWASH is especially compounded for use with automatic dishwashers. This product will work equally well at higher temperatures. For best results the injection system should be set to deliver 0.3% -0.5% by weight or approximately 1/3 oz. per gallon in the cycle. **MACHINE DISHWASH** is compounded to remove heavy soil. It should be used with water temperature of at least 120 degrees. Maintain a wash tank concentration of 0.40% by weight. For harder water (over 12 grains) the concentration should be increased.

AVAILABLE PACKAGE SIZES

FT 50305 5 Gallon Pail

TECHNICAL DATA

Color:	Red
Specific Gravity @ 75F:	1.31
Density @ 75F:	10.9 lbs/gal
pH:	12.5
Viscosity @ 75F:	Thin
Alkalinity (total & active):	19% Na ₂ O
Phosphates:	2.3% P ₂ O ₅
