Cleaner, Disinfectant, Detergent, Fungicide (against pathogenic fungi), Deodorizer, Virucide*, Mildewstat (on hard, non-porous, inanimate surfaces), Kills Pandemic 2009 H1N1 Influenza A virus (formerly called swine flu).

DESCRIPTION:

This product is a phosphate-free, pH neutral formulation designed to provide effective cleaning, deodorizing, and disinfection for hospitals, nursing homes, hotels, schools, restaurants, and food processing plants, where housekeeping is of prime importance in controlling cross contamination from treated surfaces. This product, when used as directed, is formulated to disinfect the following hard, non-porous, inanimate, environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, vanity tops, shower stalls, bathtubs, and cabinets. For larger areas such as operating rooms and patient care facilities, this product is designed to provide both general cleaning and disinfecting. This product is formulated to a neutral pH and will not dull high-gloss floor finishes with repeated use. **Kills Pandemic 2009 H1N1 Influenza A virus (formerly called swine flu).**
