

OXYBRITE™

Powdered Color Safe Bleach

DESCRIPTION:

OXYBRITE is an oxygenated bleach and **DOES NOT** contain chlorine. Can be used safely on all washable fabrics and is especially well suited for use on permanent press fabrics. Works on bleachable color fabrics as well as white. It removes stains in either hot, warm or cold water. Dissolves completely and rinses easily. Ideally suited for use in hotel / motel, nursing homes, hospitals, etc.

- Specially formulated with as an “all fabric” bleach incorporating readily dissolved oxygen sources in conjunction with an activator.
- Incorporated activator speeds the whitening action and improves efficiency by releasing the oxygen to the fabric quickly under and conditions.
- Eliminates problems associated with chlorine bleaches such as fabric damage and color loss.
- Stable free flowing white powder with no bleach odor.

DIRECTIONS FOR USE:

Before using, read Material Safety Data Sheet for this material.

Sort laundry. For best results, charge washing machine with the detergent and water before adding wash.

OXYBRITE can be used in all cycles including detergent, break or bleach. Use in the bleach cycle in warm (120°F) water, will provide optimum performance.

AVERAGE USAGE: 2-4 oz. PER 100 lbs.

FOLLOW WITH A CLEAR WATER RINSE
BE SURE TO CLOSE BUCKET LID EACH TIME AFTER USE
