

PURCLEAN™

Encapsulated Detergent Free Extraction Carpet Cleaner

DESCRIPTION:

FORTECH® PURCLEAN™ contains the newest technology in carpet cleaning. Most cleaners contain detergents that leave a sticky residue behind which attracts dirt from normal foot traffic causing cleaned carpets to get dirty faster. For the most part all methods of cleaning leave behind some residue. Pure Clean contains no detergent. It utilizes an anti soil re-deposition compound which is a crystalline polymer that "holds" or encapsulates the dirt and prevents it from re-depositing back onto the carpet fibers. As the encapsulated soil dries, it crystallizes into a dry powder and is removed with vacuuming. The result is no sticky residue left behind to attract dirt. No rapid re-soiling so carpets get cleaner and stay cleaner longer.

Petroleum  Solvents

Caustics 

Glycol Ethers (Butyl) 

Fragrance 

Bleach 

Sticky Soaps & Detergents 

DIRECTIONS FOR USE:

Before using, read Material Safety Data Sheet for this material.

Vacuum entire area to be cleaned.

EXTRACTION:

Depending upon soil, dilute from 1:40 to 1:64 (3-2 oz) per gallon of warm water. Low foam and residue free.

BONNET CLEANING:

Depending upon soil conditions, dilute from 1:20 – 1:32 (6 – 4 oz.) per gallon of warm water. Make sure spin bonnet is clean before starting. Bonnet entire area keeping in mind to flip bonnet over from time to time. Rinse out in mop bucket with clean water. Re-apply solution as needed.

PRE-SPRAY:

Depending upon soil, dilute from 1:32 – 1:64 (4-2 oz) per gallon of warm water. Use a clean pump up type sprayer for mixing and application. Spray areas completely, but do not over wet. Let sit for about 5 minutes to help penetrate and release the soil. Extract as usual.

CARPET SPOTTING:

1. Mix **PURCLEAN** 50:50 with water in a trigger spray bottle.
2. Spray directly on stained area, do not overwet. Allow sufficient contact time to penetrate soil (1-3 minutes).
3. Use a clean white absorbent towel to blot up the stain. Turn the towel over frequently as you blot, do not rub.
4. A soft spotting brush can be used for stubborn stains.
