

# SECURE™

## Stain Resistant Floor Sealer & Finish Combo

### DESCRIPTION:

**SECURE™** Floor Sealer & Finish, utilizes the latest formulation technology to provide stain protective properties in a combination seal and finish for all types of resilient tile, terrazzo, concrete and quarry tile. **SECURE™** provides superior durability and satin gloss with exceptional leveling properties. **SECURE™** can be used as a floor finish. It's like having three products in one... 1. A Stain barrier seal that has the capability of resisting the passage of stain causing agents: coal tar, asphalt, anti-oxidants, etc. which can damage the floor. 2. A leveling sealer that provides a good base for multiple top coats of ultra high speed floor finish. 3. Because of it's superior durability and satin gloss, **SECURE™** can be used as a top coat finish for money and labor saving economy. STAIN RESISTANT AGAINST: Asphalt / Coal Tar, Mustard, Ketchup, Coffee/Tea, Lipstick, Rust, Shoe Polish and Neozone (Floor mat backing)

### DIRECTIONS FOR USE:

*Before using, read Material Safety Data Sheet for this material.*

1. Thoroughly strip all old wax and seal from the floor using any one of **FORTECH® PRODUCTS** floor strippers according to the directions.
2. After stripping, rinse the floor thoroughly to insure a clean, film free surface.
3. Apply **SECURE™** in a uniform, thin coat using a clean finish mop. If you are using a mop and bucket, line the bucket first with a new trash can liner to prevent contamination from any existing bucket residue.
4. Allow to dry for a minimum of 30 minutes. If floor has an uneven appearance, apply a second coat.
5. At this point, multiple coats of **SECURE** can be applied for a "hard as nails" finish. **SECURE™** can be top coated with any one of **FORTECH's®** floor finishes.

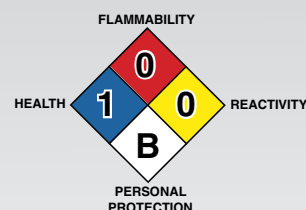

### AVAILABLE PACKAGE SIZES

FT 31604      4x1 Gallon Bottles  
 FT 31605      5 Gallon Pail

### TECHNICAL DATA

Form:	Liquid
Color:	Milky White
Specific Gravity @75F:	1.01
pH:	8.5 - 9.0
Nonvolatile Solids:	20.0% +/-0.3%
Total Solids:	28.7
Slip Resistance:	Meets ASTM D 2047

### HMIS Rating
