

SOFT & SOUR™

Combo Softener and Sour

DESCRIPTION:

SOFT & SOUR is a combined softener and sour in one convenient product. **SOFT & SOUR** contains high active cationic fabric softeners. Towels and diapers come out fluffy and soft. **SOFT & SOUR** adds sheen to flatwork and acts as an anti-static agent. This product improves ironing efficiency and drying time by making it easier to remove water from the work in the spin cycle. **SOFT & SOUR** extends the life of the fabric by neutralizing excess alkalinity in the wash water. **SOFT & SOUR** will prevent graying and stiffness by removing any alkali carbonate salt deposits.

DIRECTIONS FOR USE:

Before using, read Material Safety Data Sheet for this material.

1. **SOFT & SOUR** should be added in the rinse cycle. Adding the softener to the wash cycle will reduce its transfer to the fabric and may contribute to graying of the work.
2. Add 1 to 3 ounces per 100 lbs. of dry weight.
3. Use amounts will vary with different amount of hard water and alkali carryover. Therefore the operator should review the use level frequently.

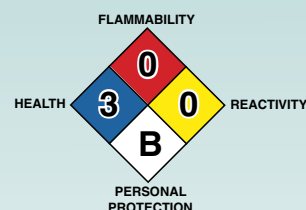

AVAILABLE PACKAGE SIZES

FT 53205 5 Gallon Pail

TECHNICAL DATA

Form:	Liquid
Color:	Green
pH Concentrate:	1.5 - 2.5
Acid Type:	Phosphoric
Specific Gravity @ 75F:	1.04
Density @ 75F:	8.6 lbs/gal
Fragrance:	Floral
Viscosity @ 75F:	Less than 100 cps.
Foam:	Low
Chlorine:	None
Solvents:	None
