

SPRITE™

Granular Chlorinated Sanitizer

DESCRIPTION:

SPRITE™ SANITIZER is recommended for use on hard surfaces and food processing equipment, including dairy and brewery equipment and utensils. **SPRITE™ SANITIZER** formulation combines chlorine chemical stability and water softening and free rinsing characteristics. Application of effective sanitizing procedures destroys those disease organisms which may be present on equipment after cleaning and prevents their transfer via the food to consumers. **SPRITE™ SANITIZER** is EPA registered and meets FDA standards. Its usage is approved by sanitarians and boards of health.

DIRECTIONS FOR USE:

Before using, read Material Safety Data Sheet for this material.

1. Pre rinse equipment, walls and surfaces with warm water to remove as much gross soil as possible.
2. Thoroughly wash equipment and utensils in a hot detergent solution.
3. Sanitize by immersion in a 1 oz per 10 gallon solution of this product (100 ppm) for at least 60 seconds.
4. For equipment too large for immersion, apply a 1 oz per 10 gallon solution (100 ppm) by rinsing, spraying or swabbing until thoroughly wetted.
5. Allow sanitized surfaces to air dry. **DO NOT RINSE.**

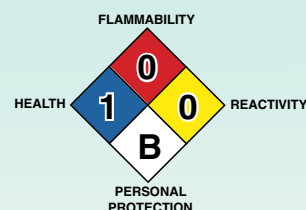

AVAILABLE PACKAGE SIZES

FT 90475 (4) 7.5 Pound Jars

TECHNICAL DATA

Active Ingredient:	Sodium Dichloro-s-triazinetrione
Form:	Granular Powder
Color:	White
Foam:	Very Low
USDA:	D2
FDA:	Yes meets 21 CFR
Chlorine:	14.0% Available
Phosphorus:	2.5% P

HMIS Rating
