

DELETE FG

FOOD GRADE SILICONE DEFOAMER

Description:

DELETE FG defoamer is a stable silicone emulsion for use as a general purpose defoaming agent in food processing plants. This product is extremely effective in preventing foam generation. An excellent choice for rendering operations, tank cleaning, and fish processing.

Directions for Use:

1. FDA regulations allow up to 400 ppm concentration. To achieve 400 PPM dilute 5oz. per gallon of water.
2. Experimentation is recommended to find the most cost effective level of defoamer for your application.

Safety:

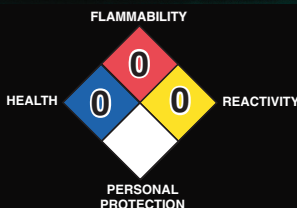

FIRST AID

If Inhaled: Remove to fresh air. Give artificial respiration if not breathing. Get immediate medical attention.

Eyes: Immediately flush eyes with lots of running water for 15 minutes, lifting the upper and lower eyelids occasionally. Get immediate medical attention. **External:** Immediately wash skin with lots of soap and water. Remove contaminated clothing and shoes; wash before reuse. Get medical attention if irritation persists after washing. **Internal:** If conscious, immediately induce vomiting by giving 2 glasses of water and sticking a finger down the throat. Get immediate medical attention. Do not give anything by mouth to an unconscious or convulsing person.
