

FORMULA FP-CL

ECONOMY CHLORINATED FOAMING ALKALINE CLEANER

Description:

FORMULA FP-CL is a self foaming chlorinated alkaline cleaner for the food processing industry. It is a chlorinated alkaline cleaner built with high-foaming surfactants. When used in conjunction with foam generating equipment, it will produce copious amounts of dense, stable foam which clings to equipment, walls, and surfaces. Alkaline detergent builders loosen and break up soil particles. The available chlorine helps in the removal of proteinaceous food soils.

Directions for Use:

For foam cleaning of equipment, walls and surfaces.

1. Pre-rinse equipment, walls and surfaces with warm water to remove as much gross soil as possible.
2. Prepare cleaning solution by adding 5-10oz. of **FORMULA FP-CL** per gallon of 130°-140°F water.
3. Using foam generator apply foam solution to surfaces. Allow solution to remain in contact with surfaces for 10 minutes.
4. Follow with a potable water rinse.

Safety:

FIRST AID

CALL A PHYSICIAN. **Internal:** Give large quantities of water. Do Not induce vomiting. **External:** Flood with water for at least 15 minutes. Wash with soap and water until area is no longer slippery. Remove contaminated clothing and wash before reuse. **Eyes:** Immediately, flush with water for at least 15 minutes. Forcibly hold eyelids apart to ensure complete irrigation of all eye and lid tissue. Contact lenses should not be worn when with this product.
