

# MAGNUM III

## FOAMING NON-BUTYL ALKALINE EMULSIFIER

### Description:

**MAGNUM III** is a moderately alkaline detergent concentrate designed for the quick effective removal of fat and oils. It is formulated with a special blend of detergents for foam cleaning applications and for the emulsification of fat and grease. Alkaline builders provide added penetration and suspension. Contains water softeners for hard water conditions. Can be used as a foam additive for high caustic cleaners.

### Directions for Use:

For foam cleaning of equipment, walls and surfaces.

1. Pre-rinse equipment, walls and surfaces with warm water to remove as much gross soil as possible.
2. Prepare cleaning solution by adding 4-8oz. of **MAGNUM III** per gallon of 130°-140°F water.
3. Using foam generator apply foam solution to surfaces. Allow solution to remain in contact with surfaces for 3-5 minutes then rinse.
4. If chlorine is needed add liquid 12.5% or 5.25% chlorine to dilute detergent solution.

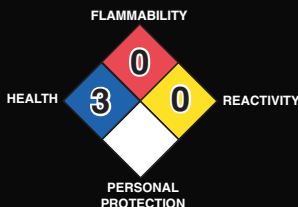

### Safety:

#### FIRST AID

CALL A PHYSICIAN. **Eyes:** Immediately flush eyes with plenty of water for at least 15 minutes. Forcibly hold eyelids apart to ensure complete irrigation of all eye and lid tissue. Contact lenses should not be worn when using this product. **Skin:** Flood with water for at least 15 minutes. Wash with soap and water until area is no longer slippery. Remove contaminated clothing and wash before reuse. **If swallowed:** Give large quantities of water. Do not induce vomiting.
