

AUTO DISH

Description

AUTO DISH is designed for machine dishwashing operations for all types of china, glass and plastic ware. **AUTO DISH** does not contain caustic soda or potassium hydroxide and can be used on aluminum. **AUTO DISH** is highly chlorinated for effective removal of proteinaceous soils. **AUTO DISH** contains three builders for effective removal of heavy soil and grease. These builders also soften the water to prevent spotting on the dishes and scale build-up on the equipment. Special corrosion inhibitors also protect the machinery and prevent deglazing of fine china patterns. This product contains organic rinsing agents which provide free rinsing action, eliminating water spotting on glasses. **AUTO DISH** meets the requirements for phosphate content in all phosphate restricted areas.

Smaller Machines	Fill all Dispenser Cups
Commercial Machines:	Use 1oz. per Gallon of Water
De-Staining	Soak stained china or plastic in a solution of 3oz. of AUTO DISH per gallon of hot water.

NOTE: Increase dose in very hard water.

AVAILABLE SIZES:

20 Pound Pail
Item# RN 00420

SPECIFICATION DATA

Form: White Granular Powder
 pH 1% Solution: 12.0 - 12.5
 Foam: None
 Chlorine: 1% Available
 Solvents: None
 Phosphates: 2.6% P
 Active Alkalinity: 23.5% Na₂O
 Sod. Hydroxide: None
 Pot. Hydroxide: None

ENVIRONMENTAL & WORKER SAFETY: No Reportable Carcinogens, No Prop. 65 Chemicals, No SARA 313 Inventory Chemicals.
